Executive Coaching über acht Sitzungen, Direktor Niederlande bei Lufthansa Technik, Hamburg

"Not only did I enjoy greatly working with Dr. Keller and the approaches he took, but also the rapid positive effect out of the coaching enabled me to also be perceived well in my new position. I learned Dr. Keller as an individual with great experience professionally as well as in intercultural areas due to his experience in the USA, in the Netherland (my country of birth) and of course in Germany. He listens and on that basis gives support in defining a proper plan of action, not wasting time."
